

Double Degree Program

Outline of Double Degree Program

Double Degree Program is the international cooperative education program that will enable the students enrolled in the graduate school at their Home University to transfer to the graduate school at the Host University in order to obtain the degrees of both universities upon completion of the program.

SDG Professional Course

Outline of SDG Professional Course (A new UNESCO Chair Program)

In 2015, the United Nations designated a set of 17 global Sustainable Development Goals (SDGs) to be achieved by 2030. Nagaoka University of Technology (NUT) has been dedicated to accomplish these goals, and the SDG Professional Course (SDG-P) is established according to the concept of SDGs. This is a graduate engineering course aiming at nurturing practical engineers, researchers and educators with high level of expertise.

Other International Exchanges

Nagaoka Summer School for Young Engineers(NASSYE)

Nagaoka Summer School for Young Engineers (NASSYE) is a summer school program designed for penultimate engineering students who are interested in proceeding their graduate studies in Nagaoka University of Technology (NUT).

The program offers students the opportunity to experience research work at NUT laboratories and take part in various cultural exchange events, including site-visit and Japanese cultural learning activities.
